Subject: RE: San Juan Mining & Reclamation Conference

Hello Steve and the Steering Committee,

Thank you all for your good work and collaboration! What a great success!

We are really glad to have everyone be a part of the event. We have received 4 donations thus far for next years conference, around \$200- a little bit, but it all helps.

Steve, thank you for the interest. It's a great event and it just keeps getting stronger every year!

We should really think about ways to keep the conversation going in between the conference events. I think there is an appetite for it. We just need to figure out what the right vehicle would be—enews, articles, list serve, publication of case studies. It could be really great.

Thank you,

Marcie

Subject: San Juan Mining & Reclamation Conference

Dear Steve,

It was nice meeting you at the conference in Telluride last week. Thank you for reaching out to me to let the organizing committee know that EPA may be able to help with sponsorship in the future. We appreciate EPA's wanting to support the conference, which as you experienced, is a good place for people to share ideas, experiences and increase everyone's understanding of what is being accomplished - which is a lot!

A reminder to look at PASI reports I prepared for EPA when I worked with CDPHE in the 1990's - Either Cement Creek or Upper Animas SI reports may have a couple of front yard soil sample results.

Thanks again,

Camille Price
